Abstract

PURPOSE: To obtain a tray for storing the compact disk recording game soft or music (disk-like information recording medium with a hole called CD).

CONSTITUTION: A tray 1 is provided with a support base plate part wider than CD0, a support folding plate part 4 as wide as the support base plate part and attached to the end edge 2a of the support base plate part by a hinge 3 in a freely folding manner and an interposing folding plate part 6 as wide as the support folding plate part 4 and attached to the end edge 4a of the support folding plate part 4 by a hinge 5 in a freely folding manner. The tray 1 is further provided with a side part 7 and a side part 8 integrally rising from the side edges 2b and 2c of the support base plate part, respectively, and grip parts 9 and 10 formed on the upper surface 2d of the support base plate part and the upper surface 4a of the support folding plate part 4 in a horizontally developing condition, respectively.
